RECEIVED
MAR 23 1990
DEPT. OF ECOLOGY

Boeing Airplane Co (formerly Boeing Advanced Systems)

Dear Mr. Knutson:

We have received the attached waste discharge permit applications for five sites identified as follows:

- Developmental Center site
- East Marginal Corporate Park
- Military Flight Center site
- Thompson site
- Oxbow Corporate Park

The Thompson site formerly was permitted for a plating operation which was discontinued in 1984. No industrial discharges occur at this time. Our files show a DA has already issued for the Military Flight Center. Except for the Developmental Center, it appears no process waters are involved. However Metro had been receiving requests for sporadic discharges to the sewer and believes formal Discharge Authorizations should be explored for these sites.

The enclosed letter further explains the status of these applications. If a permit is required for the Developmental Center site, I will send you a copy of the draft permit for your review and comment.

If you have any comments regarding the attached application, please contact me at 684-2326 within fourteen (14) days of receipt of this letter. Thank you for your assistance.

Sincerely,

Louise Kulzer
